PROFESSIONAL SUMMARY

Frontend Developer with 2 years of hands-on experience in building responsive and user-centric web applications using HTML, CSS, JavaScript, TypeScript, React, and Next.js. Proficient in component-based architecture, state management, and clean code practices. Passionate about delivering real-world solutions and continuously improving through modern frontend tools and workflows.

PROJECTS

To-Do List App

Developed a dynamic and interactive To-Do List web application using Next.js with TypeScript and Tailwind CSS. Implemented CRUD operations (Create, Read, Update, Delete) for tasks, providing a seamless user experience. Utilized Local Storage for persistent data management, ensuring user data is saved across sessions. Designed a responsive UI to ensure optimal display across various devices. Technologies: Next.js, TypeScript, Tailwind CSS, HTML5, CSS3, Local Storage.

LiveDemo : todo-list-7w9.pages.dev

Dental Clinic Patient Management System

Engineered a patient management dashboard for dental clinics using Next.js with TypeScript and Tailwind CSS. Developed core functionalities including adding, editing, and deleting patient records, appointments, and treatment notes. Implemented client-side data persistence using Local Storage to simulate a backend system for data management. Designed a clean and intuitive user interface for efficient patient data handling.

Technologies: Next.js, TypeScript, Tailwind CSS, Local Storage, HTML5, CSS3.
