SUMMARY

Front-End Developer with 2+ years building responsive, scalable web apps in React.js, Next.js, and TypeScript. Shipped production dashboards and project-management platforms, translating Figma designs into pixel-accurate, accessible (WCAG) UIs. Fast at picking up new stacks and tools, with strong ability to use AI effectively to accelerate development while reviewing, understanding, and owning the resulting code.

EXPERIENCE

Front-End Developer

Oct 2025 – Present

Matrix Minds IT

- Build and maintain web applications using React.js, Next.js, and TypeScript.
- Develop responsive interfaces for desktop and mobile devices.
- Integrate REST APIs and implement dynamic frontend workflows.
- Collaborate with designers and backend developers in a cross-functional team environment.

Front-End Developer

Oct 2024 – Oct 2025

Oriented Coders

- Developed modern web applications using React.js and Next.js.
- Converted Figma designs into responsive and production-ready interfaces.
- Improved component structure and overall code quality.
- Tested applications across browsers and screen sizes to ensure compatibility.

PROJECTS

Matrix Minds IT — Company Website · matrixmindsit.com

- Official corporate website showcasing IT services with mobile-first responsive design and SEO-optimized structure.
- Built using React.js, Next.js, TypeScript, and Tailwind CSS.
GitHub: github.com/matrixmindsit-eg/mm-system

Kevta — Task & Board Management Platform · kevt.aapp

- GitHub-like project management platform with workspaces, boards, and item-based task organization.
- Created Kanban-style boards with draggable items, status columns, and structured task workflows.
- Built using React.js, Next.js, TypeScript, and Tailwind CSS.
GitHub: github.com/matrixmindsit-eg/todo-list

Folier — No-Code Portfolio Builder · folier.aapp

- No-code SaaS platform enabling users to build and publish personal portfolio websites without writing code.
- Implemented customizable templates, live preview, and a streamlined publishing workflow.
- Built using React.js, Next.js, TypeScript, and Tailwind CSS.
GitHub: github.com/matrixmindsit-eg/portfolio

Course Master — E-Learning Platform

- Role-based e-learning platform with separate dashboards for instructors and students.
- Implemented course management, enrollment handling, and structured learning workflows.
- Built using Next.js, TypeScript, and Tailwind CSS.

Safety Zone — Fire Protection System & Dashboard

- Internal system and dashboard for a fire protection company to manage services and operations.
- Built using React.js, Next.js, and Tailwind CSS.

TECHNICAL SKILLS

Frontend

React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

Backend (Working Knowledge)

Node.js, Express.js, REST API Design

UI & Styling

Tailwind CSS, Responsive Design, Mobile-First, Accessibility (WCAG), Figma to Code

Tools & Workflow

Git, GitHub, REST APIs, Vercel, Cursor, ChatGPT, Claude

State Management

Context API, React Hooks

Core Concepts

Component-Based Architecture, Reusable Components, API Integration, Performance Optimization

EDUCATION

Bachelor of Law

2019 – 2023

Assiut University — career transition into Front-End Development via intensive project-based learning with React.js, Next.js, and TypeScript.
